

We are the World's **ONLY** Fiberglass Shed Door Manufacturer.

# The cure for the misfit shed door.

72" x 27" Six Panel Door

## DON'T BE FOOLED!

A poorly proportioned shed door will affect the overall look of your shed and decrease its value. That's why we go the extra mile to build our **American Shanty** door collection.

One look will tell you our doors are different. *They are built specifically for sheds, perfectly proportioned for maximum visual appeal, and built to last.* And, these doors are designed to retain the rich deep-grain beauty of wood, while providing all the benefits of fiberglass. The extra attention to detail makes all the difference.

*Call us today or visit us on-line to see how our door systems can enhance your business.*

Many combinations of window sizes and colors are available.

White 2x3 flush windows in stock & available for immediate shipping.
